EDUCATION

Simon Fraser University

Bachelor of Applied Science – Software Systems

Burnaby, BC

Sept 2023 – Present

- Expected Graduation: Dec 2027
- Relevant Coursework: Computer Systems, Systems Programming, Software Engineering, Database Systems, Data Structures, Object-Oriented Design

TECHNICAL SKILLS

Languages: Python, SQL, Java, C/C++, JavaScript, TypeScript, Rust

Security & Risk: secure software practices, access control awareness, risk documentation, technical investigation, reporting

Systems & Data: Linux/Bash, REST APIs, JSON, Postgres, MySQL, Supabase Auth/Storage, relational data models

Tools & Practices: Git, GitHub, Docker, debugging, code review, documentation, Agile teamwork, technical communication

PROJECTS

AI Study Notes Tracker | *Python, FastAPI, Next.js, TypeScript, Supabase, Gemini API*

2026

- Built and deployed a full-stack application with authentication, file upload, backend processing, and persistent user data.
- Used Supabase Auth/Postgres/Storage to manage authenticated access, documents, generated notes, quizzes, and folder organization.
- Investigated and improved issues involving failed uploads, slow responses, API limits, backend errors, and long-running tasks.
- Documented deployment setup and handled environment configuration across frontend, backend, and database services.

Database Systems Project | *MySQL, SQL, Relational Design*

2025

- Designed a normalized relational database schema with constraints to maintain data integrity and reduce redundancy.
- Wrote SQL queries for validation, filtering, joins, reporting, and retrieving data across related tables.

Love At First Paw | *React, Next.js, TypeScript, Petfinder API, Mapbox API*

Jan 2025 – Apr 2025

- Collaborated in a 4-person Agile team to build a web platform with external API integrations and user-facing workflows.
- Validated inconsistent API responses and improved reliability through caching, debugging, and clearer loading/error states.
- Used GitHub branches, pull requests, code reviews, and Vercel CI/CD to coordinate development and deployment.

LEADERSHIP & VOLUNTEER EXPERIENCE

Volunteer Caregiver & Youth Tutor

June 2023 – Aug 2023

United Youth Organization

Yangon, Myanmar

- Supported elderly community members and tutored children in basic English and math.

Event Volunteer – Fundraising Food Fair

Apr 2025

Gateway Myanmar Baptist Church

Surrey, BC

- Assisted food preparation, serving, and setup for a fundraising event with 200+ guests.

INTERESTS & EXTRACURRICULAR

- Cybersecurity risk, GRC, secure software, systems security, technical reporting, data analysis, and software side projects.
